No. 50

## Civic Elections Held Monday

The tumult, and the shouting dies, the captains and the kings depart (with apologies to Kipling), and the Town Hall settles down to its usual tranquility and peace, following the elections on Monday of this week, when despite a high west wind and drifting snow, 365 votes were cast for the vacancies on the Council and School Board.

Melvin King led the polls for Councilmen with 165 votes, and the other four were as follows: Walter H. Zohell, 162; Thomas K. Roberts 140; Wm. A. Anderson, 84; Wm. Redd, 58. The first three were declared elected to the Council.

In voting for School Board members, where many voted who could not vote for Town officials C. F. Tollestrup led the polls with 257; the others lining up as follows: D. G. Selman, 176; I. B. Roberts, 170; J. Wm. Evans, 101. The first two were elected.

There was considerable interest taken in the elections, and the enthusiasm seemed more widespread than is usually taken. It is a good sign, and here's hoping that people will continue to take their town's business seriously enough to become better acquainted with affairs.

## Successful Short Course Held

A mid-winter short course secured by the Board of Trade but sponsored by the Alberta Department of Agriculture was held Wednesday and Thursday of this week at the local School of Agriculture. The purpose is to give direct to the farmers the last word in scientific farming. Between 150 and 200 attended, many from other districts including Taber, Barnwell, Lethbridge, Stirling, Magrath and Cardston.

Proper blending and dovetailing of the different branches of mixed farming is the secret of success, and the advantages we have in dairying seemed to be the outstanding lesson offered for Raymond farmers.

The program was as follows: Opening of Short Course by T. Geo. Wood, Pres. of the Raymond Board of Trade.

"Where are We Going in the Hog Business?" Prof. J. P. Sackville, University of Alberta.

Discussion led by M. L. Freng, "Forage Crops and Permanent Pasture," by E. L. Gray.

Discussion led by Supt. W. H. Fairfield, Leth. Ex. Farm.

THURSDAY, 10 o'clock "Beet Growers Lessons from Billings," by B. R. McMullin and Phillip Baker.

Fertilizer Experiments in connection with Sugar Beets" by A. E. Palmer, Asst. Supt. at the Leth. Ex. Farm.

Discussion led by F. R. Taylor, Agricultural Supt. Canadian Sugar Factories, Ltd.

"The Place of Dairying on the Irrigated Farm," by S. G. Carlyle, Livestock Commissioner, Province of Alberta.

Discussion led by K. E. Rasmussen, Leth. Ex. Farm.

"Feeding and Marketing in the Raymond District," by Jno. Wilson, Alberta Department of Agriculture.

Discussion led by I. B. Roberts, Raymond.

A new policy, announced by the Provincial Department of Agriculture, regarding the exchange by farmers of market grades of wheat for cleaned and fully prepared seed, was explained, and details may be had from C. O. Asplund, Raymond, or Don Wilde at Welling.

The Second Ward Primary served a very nice Cafeteria Lunch both days at 15c. per plate, and received good patronage both days.

## Jacks Win From Aces 43-40

Playing in the Lethbridge Collegiate on Saturday night in the second game of the four game series for the district Championship in Senior Basketball, the Union Jacks jerked the game out of the fire in the dying moments and won by a score of 43-40, after a basket from Kirkham and one from Nalder had put them in the lead. The sound of the final bell was a welcome signal to the tired Union Jacks.

The game was interesting from start to finish, and at no time did either team have much edge on the playing. The Aces were in fighting mood, and they checked the Jacks closely, so that every point had to be well earned. Then too, the Jacks were minus the help of 'Smiling' Sam Fairbanks, and this made a difference, but they were out to win, and they made every opportunity count, so that despite the close score they made it clear win to make the series two straight.

## Lethbridge Taxi Driver Victim of Attack

J. W. Boulton veteran taxi driver of Lethbridge had a harrowing experience over the week-end, when going about his usual business, and with the thermometer down below zero line several degrees.

Answering a call just before midnight Saturday he took a passenger John Maksut, out on the Lethbridge Northern, and drove him around from one place to another in the early hours of the morning Sunday. Maksut purchased a bottle of gin and tonic, and they called at two or three after that, and then with one other man in the taxi Maksut told Boulton he was ready to go back to Lethbridge. They had not proceeded on the road very far when Maksut drew a gun order-

ed Boulton to stop, and then fired point blank at him. The first bullet creased Boulton's scalp, the next two went wild, and by that time Boulton was out of the taxi and making off.

He went through a field to a ditch rider's place where he phoned the police and they were soon on the scene. The two men made off in the car, and the police tracked it and soon picked up the companion of Maksut in a shaft, and he told them that Maksut had gone on to Fairbairn in the taxi to see his wife who worked there.

The car was soon recovered and Maksut lodged in the cells to face a charge of attempted murder. No motive could be given for the crime when the arrest was made.

## Old Folks Are Royally Entertained

The usual good time was enjoyed by Raymond's Honored Guests at the Opera House last Wednesday, when the fun commenced at 1 p.m. and lasted till midnight for those who desired to stay that long.

212 were seated at the table for dinner, where they feasted on the fat of the land, until all were satisfied, and some more than satisfied.

Games and conversation occupied the afternoon, during which the following were honored with floral gifts.

Mr. Schneider, 86 years old was the oldest person present.

Mesdames Hicks and Hancock were next oldest, 81 years.

Mesdames Jensen, Anderson and Selman, were 79 years.

Messrs. Erickson, John Wall C. Nilsson, H. Coles and Wm. Wilde have all been married for over fifty years.

Thos. Hicken, 80 years old, was the father of 16 living children, had the largest family.

13 Honored guests were unable to be present and were sent gifts of flowers.

Frache's, the Rosery and the Marquis Flower Shops of Lethbridge donated the flowers.

125 sat down to supper and a dance for the married folks concluded the festivities.

## PLANS FOR WORLD'S GRAIN CONFERENCE ARE PUSHED FORWARD

Designed to Give World Leadership in Solving Existing Problems

Plans for the world conference upon agricultural topics to be held this summer, as part of the program of the World's Grain Exhibition and Conference were advanced a stage at a meeting of the committee in charge held last week. It has been agreed tentatively that sessions of the conference will be held during the mornings and afternoons. The morning sessions will be devoted, almost exclusively, to such topics as have a direct bearing upon field crop production in all parts of the world keeping in view a real endeavor to give world leadership in seeking solutions for existing problems. The afternoon sessions, according to present plans, will be of a sectional character, devoted largely to the discussion of such subjects as may have a direct bearing upon the technical problems of agriculture.

Dr. Archibald, director of Dominion experimental farms and chairman of the conference program committee, reported that in response to invitations to take part in the program, very encouraging replies were being received from prominent agricultural men from all over the world. As a result there is every assurance that the objects of the conference will be attained.

## News Notes

Wm. Cooper of Cardston was here on Tuesday after a truck load of sugar.

Gene Goss, a salesman in Oakland, Cal., quarrelled with his wife, and while walking on the highway commenced bombarding motorists with stones to take out his revenge. One man was killed and severely wounded, and a great deal of damage done to cars before he was taken in custody by the police.

and Conference. The cost of membership is comparatively low. Complete particulars may be secured from the Secretary.

"In my estimation the World's Grain Exhibition and Conference to be held at Regina from July 24 to August 6, is now as sured of complete success." — A. H. Allen, assistant director crops branch, department of agriculture, Ontario.

The 1933 Annual meeting of the Saskatchewan Pharmaceutical Association will be held at Regina just before the opening of the World's Grain Exhibition and Conference on July 24.

The experimental farm at Nappan, N.S., according to W. W. Baird, president of the board of trade, Amherst, will enter several samples of grain and seed at the World's Grain Show to be held at Regina this year.

Norman S. Solt of Big Creek Pa., U.S.A. who took first place in the Flint corn class at Chicago in December is planning to enter the corn class at the World's Grain Show to be held at Regina this year.

"Since the World's Grain Exhibition and Conference to be held at Regina, Canada, next summer, many of the problems which it will have to consider have been made more acute by the calamitous fall in world prices. All the chief grain growing countries have agreed to send delegates, and while their attention will be devoted as much to technical as to economic questions, it is hoped that something may be suggested to ensure that prices do not remain permanently below the cost of production."—Nottingham (Eng.) Evening Post.

## SOMETHING NEW IN ENTERTAINMENT

Next Monday at the Capitol the Magrath Second Ward Sunday School are presenting a 3 act play entitled "INTRUDING ON HORACE" with an exceptionally strong cast including several performers that were in the Pageant which was played in the Second Ward Hall last year. It comes very highly recommended, and in order that everyone may witness it the prices are within the reach of all. 25c. for Adults and 10c. for kiddies. General Admission.

## News Notes

FREE Diamond Ring at the Capitol FRIDAY night of next week.

Read King Motors' ad and save money. These prices are good for a limited time only.

Mrs. Jackson arrived today from an extended visit at the Coast with her parents. "Bill" is now all smiles.

The Second Ward Relief Society held their meeting on Tuesday of this week at the home of Mrs. Amanda Nilsson.

George Harmsen has been indisposed again for several days and Fred Piepgrass and his son Lyle have been helping in the Butcher Shop.

The Aces of Lethbridge will be here Friday night in the third of their games for the Senior Basketball Championship of Southern Alberta. The Jacks have two wins to their credit to date.

Declaring that the Government of Alberta had more than doubled the mortgage on the Province in 11 years, W. R. Howson, Liberal Leader moved a want of confidence motion in the house Monday and it was seconded by J. B. Dechene, with this amendment "Humbly recommends that His Majesty's government of the province of Alberta reorganize every department of the government in order to increase the efficiency of each and to eliminate the tremendous waste, duplication and unnecessary expenditure which exist at the present time." The Liberal Leader scored the Brownlee administration severely in some of their work.

## Town Council Meeting Notes

The Council at last session listened to protests from property owners, re the closing of Utah, Range and Columbia Avenues as advertised, and after hearing the protests decided to table the matter for the time being at least.

An account from the Galt Hospital re the Crawford child, a grandson of David Richardson for services during illness, was considered and ordered paid.

The application of Lynn Favns for a Restaurant License was granted.

The Council decided that the assessing for the current year would be done by the Council and the Secretary-Treasurer.

The reports of the Constable Engineer and Committee Chairman were heard, and the payroll passed as follows:

R. A. VanOrman,	\$102.50
O. H. Snow,	102.50
Sam Dyson,	102.50
Dr. Leech,	31.00
Mrs. Audenart,	15.00
Mrs. D. Richardson,	15.00
Mrs. Boyson,	15.00
Henry Jensen,	25.10
Don H. Wall,	13.90

Commercial Printers 24.28  
S. B. Card, 11.45  
A. G. Telephones 12.60  
Ralph Bros. 2.33  
Can. Utilities 171.03  
Stamps, 2.00  
R. A. Van Orman, Poll Tax Collections, 10.00  
W. H. Ford, 30.00

## News Notes

Lynn has a message for you in this issue. Read it.

"SMILIN' THROUGH" at the CAPITOL Tonight.

The Chinook arch was plainly seen on Wednesday morning and the wind was getting warmer during the day, although it did not melt very much.

Everyone was rushing around Wednesday getting ready for the Old Folks Annual Party, and as usual a feast fit for a king was spread for the Old Folks to enjoy. Many were wishing they could add a few years to their age for the one day at least.

## News Notes

First Show Saturday night at 6:15 for "Smilin' Through."

Mrs. S. I. May is visiting in Cardston with relatives for a few days.

Quite a number of Raymond people were at the Cardston Temple on Thursday.

Charles Borchert 11, nephew of Deane was kidnapped Sunday night, and two men left a note demanding a ransom of \$60,000.00. It sure is tough to be rich.

In the twenty years ago column of Lethbridge Herald of Saturday, appeared the announcement of the opening of the Roller Skating Rink in Lethbridge by one of the Brewerton boys from here.

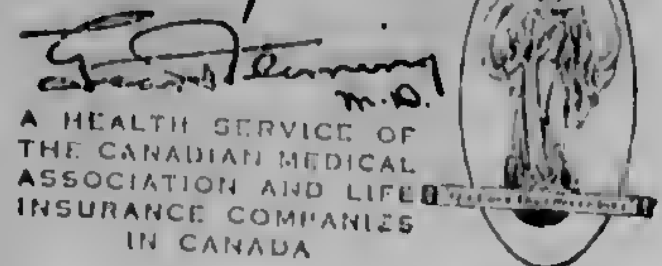

Fairly good audiences witnessed the presentation of "So Big" at the Capitol the first three nights of this week. The 1st Ward show, "Women Folks" shown Tuesday evening in connection with "So Big" made a very interesting program.

# HEALTH

## I'LL DIE FIRST

"I tried to work it off" was the frank excuse given recently by a middle-aged man, ill in bed, when told by his physician that he was suffering from pneumonia. A battle between life and death was the price this man paid for his neglect of a cold.

"I'll die before I'm operated on" is a statement that is not infrequently made. The individual who makes the statement often gets his wish. Conditions which require surgical care, unless given such care, usually grow worse and worse until it may be too late even to save life. Excluding accidents, it is cases such as these which constitute the majority of emergency operations, and the number of deaths after emergency operations is much higher than it is in ordinary surgical cases. The neglected appendix and hernia are typical examples.

"I thought it was only a sore throat" exclaims the distracted mother to the doctor attending her child who is critically ill with diphtheria. And yet, time and time again she had read in the newspapers, had been told by her doctor, or had learned at the Health Centre how this tragic disease could be prevented by the simple injection of toxoid. Thousands of cases of diphtheria occur annually in all countries, some more, some less, depending upon the number of children who have been protected against diphtheria by immunization. Last year, six hundred and thirty-five deaths occurred in Canada from diphtheria. The vast majority of these lives could have been saved had diphtheria antitoxin been given soon enough. Two weapons which

are available, one for prevention and another for treatment were not put to use.

Three types of individuals found in every community have been briefly described. In addition to them is the unskilled person who takes upon himself the role of medical adviser. People of this type belong to a group, happily becoming fewer, who not only do not avail themselves of the benefits of medical science, but who exercise all in their power to keep these benefits away from others. Countless lives would be saved yearly, and much suffering and poverty would be avoided if advantage were taken of medical resources which are now available. These resources should be used by everybody; children especially should be given that protection from disease which is theirs by right.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.

## ARTIFICIAL SUNLIGHT

Nowadays, many things that are found in nature are also produced artificially. The term "artificial" no longer suggests an inferior substitute for indeed something that is artificial may have certain advantages such as being more accessible and more uniform in quality than the natural product.

From the earliest ages man has appreciated the warmth and growth-giving power of the sun. Man, along with plants and animals, has turned his face to the sun. Sun-baths are not a modern invention; they were used many centuries ago. The Greeks included solarium in their homes, an built places by the sea where they exposed their naked bodies to the sun.

Sunlight is not, as we know, available on cloudy and rainy days. Moreover sunlight varies in its duration and intensity with the time of day and the season of the year. In order

that sunlight may be constantly available irrespective of clouds, time or season, special lamps have been devised to produce artificial sunlight and other forms of light.

Sunlight whether natural or artificial, has certain effects upon the body. We know, from personal experience, that sunlight burns and tans the skin. We also know, that to expose our bodies to the sun and air, provided the exposure is properly regulated, gives us a sense of health and energy.

Studies made of the effects of light on the human body have shown that it is of great value in the prevention of rickets, that it is most useful in the prevention of a limited number of diseases, that it is of questionable value in others, and that it is actually harmful in certain conditions.

Because light treatments have some value is no justification for the exaggerated claims which have been made, nor for the wide-spread use of lamps regarding the extent of the power of which, the user is ignorant.

There is no simple rule for applying light in the treatment of disease. The area to be exposed, the source of light to be used, and the dosage, together with the condition of the individual and his reaction to exposure, are all points which must be considered if the dangers arising out of the abuse of light are to be avoided.

A real danger lies in self-treatment with light. If treatment is required, the use of light needs to be as carefully prescribed and supervised as does any other kind of treatment. Light is not a cure-all. In some conditions, when properly used, it is a valuable aid in treatment, in others, as we have said, it may be definitely harmful.

## DID YOU EVER STOP TO THINK

Edson R. Waite  
Shawnee, Okla.

UNITED STATES SENATOR ARTHUR R. ROBINSON, OF INDIANA, SAYS:

"The old Romans had a word for it. They said, 'Carpediem'—which in their vernacular meant, 'Take the Day,' or as we would say in 1933, 'Grab onto Opportunity.'"

"America has long been the land of opportunity. But the economic depression has caused us to change somewhat our sense of values on achievement. We are thinking more in terms of making this place a better place to live in than we are in terms of amassing a personal fortune."

"The opportunities of today are those for leadership; for the use of common sense in high places; for the will to do, to strive, and to achieve in the face of discouraging odds."

"Selfishness has been relegated to the background. Today we are looking for opportunities to make the world a happier place in which to live. TODAY WE ARE LEARNING THAT TODAY IS THE MODERN CHALLENGE TO OUR 'CARPE DIEM.'"

## News Notes

Mr. and Mrs. Thos. Allan left last week for a month's visit in Vancouver or Victoria for the betterment of Tommy's health which has not been any too good for sometime past.

"It is significant that Mr. Beatty is interested primarily in bringing about amalgamation, secondly in the form this amalgamation should take."—Calgary Albertan.

"When the two systems are lumped into private or public ownership, and the budgets balanced, then that muddled system can be put to work for Canada."—Vancouver Star.

"E. W. Beatty, President of the C. P. R., claims the way out of the mess is the amalgamation of our two lines under one management, and the Labor leader is inclined to agree with him."—Labor Leader, Toronto.

The newspapers in opposition to Mr. Beatty's proposals include: The Vancouver Province, Edmonton Bulletin, Toronto Globe, Toronto Star, Le Devoir, Montreal, Le Soleil, Quebec City, Montreal Daily Star, Victoria Times, Manitoba Free Press, Winnipeg Tribune, and the Edmonton Journal.

## Editorial Comment Supports Beatty Consolidation Plan

Editorial opinion throughout Canada has been very largely in favor of the proposals advanced by E. W. Beatty, K.C., Chairman and President, Canadian Pacific Railway, looking toward the consolidation of the two railway systems under one management, as the only practical means of relieving the unbearable burden upon the Canadian taxpayers. Mr. Beatty made his proposal in a recent speech before the Toronto Canadian Club, and the following paragraphs from leading editorials on the subject, clearly indicate the nation-wide scope of supporting public opinion. A total of 47 daily newspapers commented up to January 20th, of which 32 were in favor of consolidation.

"This is far and away the most candid, constructive, and striking contribution to the discussion of our transportation problems that has yet been made."—Montreal Gazette.

"Practical action appears to be essential if the transportation burden is to be lifted from the shoulders of our people."—Halifax Herald.

"It is essential with our small population that the railway mileage and service should not outrun the needs of the country."—Halifax Chronicle.

"Mr. Beatty's call for action is timely."—Saint John Telegraph-Journal.

"There is much that appears in the suggestions of Mr. E. W. Beatty, K.C."—Hamilton Herald.

"We agree with the President of the Canadian Pacific Railway that the country must get down to bed rock."—Montreal Star.

"Mr. Beatty has offered a solution of the railway problem, definite steps in this end should not be delayed."—Ottawa Citizen.

"The two constructive of all suggestions have originated from Mr. Beatty."—Victoria Colonist.

"He urges the drastic remedies, he seems necessary, regardless of every consideration, except the reduction of the two great railway systems and of the State."—Vancouver News.

"Mr. Beatty's carefully considered proposal must certainly arouse thought as to whether the unexplored possibilities of a monopoly are great enough to require that the Canadian public shall go on paying millions annually for the doubtful privilege of having separate systems."—Windsor Star.

"It would be a muddle worse confounded if the Duff recommendations were to be adopted by Parliament."—Ottawa Daily Record.

"Mr. Beatty's view is obviously in accordance with the general movement as it is coming throughout the world."—Ottawa Citizen.

# SOME WHY'S

## Mickie, the Printer's Devil

Why is it, I'd like to know, that a man who wouldn't ask a grocer for a free bar of soap with an order of groceries, will expect free reading notices because he runs an ad in our paper?

Why will a merchant who resents "trading out of town" calmly send his printing orders to a printer who lives in a nearby city?

Why will a businessman who refuses to advertise in his home paper become indignant when the editor sells some space to out of town firms?

Why is it that the heaviest advertiser is the easiest to please, while the occasional advertiser often expects preferred position and special service?

# CAPITOL - Tonight and Saturday SMILIN' THRU

First Show Saturday Night at 6:15 p.m.

Maurice Cooper and S. I. May  
were in Marath on Sat. last.  
To listen to the murmurings  
and threatenings on the street  
one would think that the biggest  
crooks were still in our midst  
and that it was time the police  
got busy. Less chatter and more  
thought would probably be a  
good thing.

### SOIL DRIFTING

(Experimental Farms Note)...  
The rowing of cereals is re-  
cognized as the main type of  
farming in the Prairie Provin-  
ces. This system necessitates  
considerable bare fallow, espe-  
cially in the drier areas. The ex-  
tensive use of fallow land, cou-  
pled with dry weather condi-  
tions and high winds, is the pri-  
mary cause of soil drifting during  
the season of preparation, but drift-  
ing commences in the late win-  
ter and early spring, usually  
after the crop has been seeded.  
Control measures, depending  
on soil type, are very important.  
Forage crops, cover crops, and  
strip farming have found favor  
in many sections. The inclusion  
of grasses in the regular farm  
rotation tends to bind and add  
fibre to the soil. However, in dry  
seasons it is difficult to get a  
satisfactory stand. The rela-  
tively high cost of seed togeth-  
er with the comparatively low  
yields and the uncertainty of  
successful stands, restricts their  
general use throughout the  
drier areas. Cover crops, such  
as wheat or oats, sown lightly  
on fallow in early August, are  
quite effective. However, in  
cutworm infested areas seed-  
ing may be delayed until early  
September. The main objection  
to the use of cover crops in the  
drier areas is the question of  
moisture and weed control.  
Fall rye seeded in late July or  
early August is an excellent  
crop to prevent soil drifting.  
Strip farming is carried on in  
Southern Alberta with very  
good results. However, to be  
most effective this type of  
farming should be adopted over  
large areas.

In areas subject to low pre-  
cipitation and soil drifting, cul-  
tural methods are important.  
In rearing summer-fallows  
the stubble from the previous  
crop should be left on or near  
the surface to prevent drift-

ing. Methods of cultivation in  
the early spring before seeding  
are of great importance. Ex-  
periments at Indian Head Ex-  
perimental Farm indicate that  
any method of cultivation  
which leaves the soil in a rou-  
gh and lumpy condition is the  
most satisfactory in controll-  
ing windblown soils.

W. H. Gibson, Superintendent,  
Dominion Experimental Farm  
Indian Head, Sask.

Monday was a cold and windy  
day. The wind was from the  
southwest, and while out of the  
wind it was not so chilly, in the  
wind, one certainly needed to  
button up their overcoat.

### ALBERTA NEWS SERVICE

#### COAL PRODUCTION

Total production of coal in Al-  
berta for 1932 was 4,870,030  
tons compared with a total of  
4,564,290 tons for the previous  
year. The 1932 production in-  
cluded 2,571,831 tons of domestic  
and 559,479 tons of sub-bitumin-  
ous and 1,738,720 tons of bitu-  
minous coal.

#### EDUCATIONAL RECORD

Alberta's educational record  
has improved in a very gratify-  
ing manner during the past 3  
years, according to the annual  
report of the Provincial Depart-  
ment of Education. The particu-  
lar feature is an increase in  
the High School enrollment dur-  
ing the past three years of  
8,814 the total figure for 1932  
being 28,247. Total public and  
high school enrolment was 17-  
0,795. New records were made  
in the number of school dis-  
tricts operating 160 days or  
more and in the average length  
of school year, which was 195  
days. The latter is a record for  
all time.

#### CREAM SUPPLY TO CREAM- ERIES

The creameries of Alberta re-  
ceived 910,459 pounds of butter  
fat in cream during the four  
weeks ending January 28th, 19-  
33, a decrease of 7,776 pounds  
or .8 p.c. under the receipts of  
the corresponding weeks of Jan-  
uary 1932 and an increase of  
96,286 pounds or 11.5 p.c. over  
the receipts of January 1931.

#### UNEMPLOYED MEN ON FARMS

More than 500 unemployed  
single men have been placed  
in farm work by the Alberta  
Relief Commission under the  
arrangements recently announ-  
ced, according to A. A. Mack-  
enzie, chairman of the commis-  
sion. This work is being carried  
steadily forward and it is ex-  
pected that in the near future  
more than 600 will be taken  
care of in this way. An effort  
is now being made by the com-  
mission to place on vacant  
farms transient families now  
on relief in the cities. Something  
has already been accomplished  
in this way. These families are  
being placed on farms with build-  
ings which are at present un-  
der the owners. Ordinary re-  
lief is supplied to these fami-  
lies but they will be expected  
to grow a certain amount of food-  
stuffs through the summer and  
the head of the family will be  
expected to work out amongst  
the neighbors whenever the op-  
portunity occurs. The commis-  
sion is anxious to learn of vac-  
ant farms which can be made  
available for this purpose. The  
commission pays rent for the  
property on a monthly basis to  
the extent of the annual taxes  
due.

## SMART? YES SIR!

#### AGRICULTURAL MEETINGS

Winter Agricultural meetings  
which have been in progress in  
various parts of the province  
under the auspices of the De-  
partment of Agriculture and  
University staff, have been well  
attended to date, farmers show-  
ing a keen interest for further  
information on approved farm  
practices. Meetings have recent-  
ly been held in the northern sec-  
tion of the province and during  
the next two weeks will be held  
at several points in Southern  
Alberta. The annual Calgary  
agricultural short course in co-  
operation with the Board of Tr-  
ade of that city was an outstand-  
ing success this year.

#### HAIL INSURANCE

Only 492 claims for hail in-  
surance were received with re-  
spect to the 1932 season, by the  
municipal hail insurance board,

according to its recent report  
just issued. Total acreage cov-  
ered by the Board in 1932 was  
452,598 acres under 3,228 ap-  
plications, an increase of over  
50 p.c. from 1931. Hail fell on  
40 different days in the season.

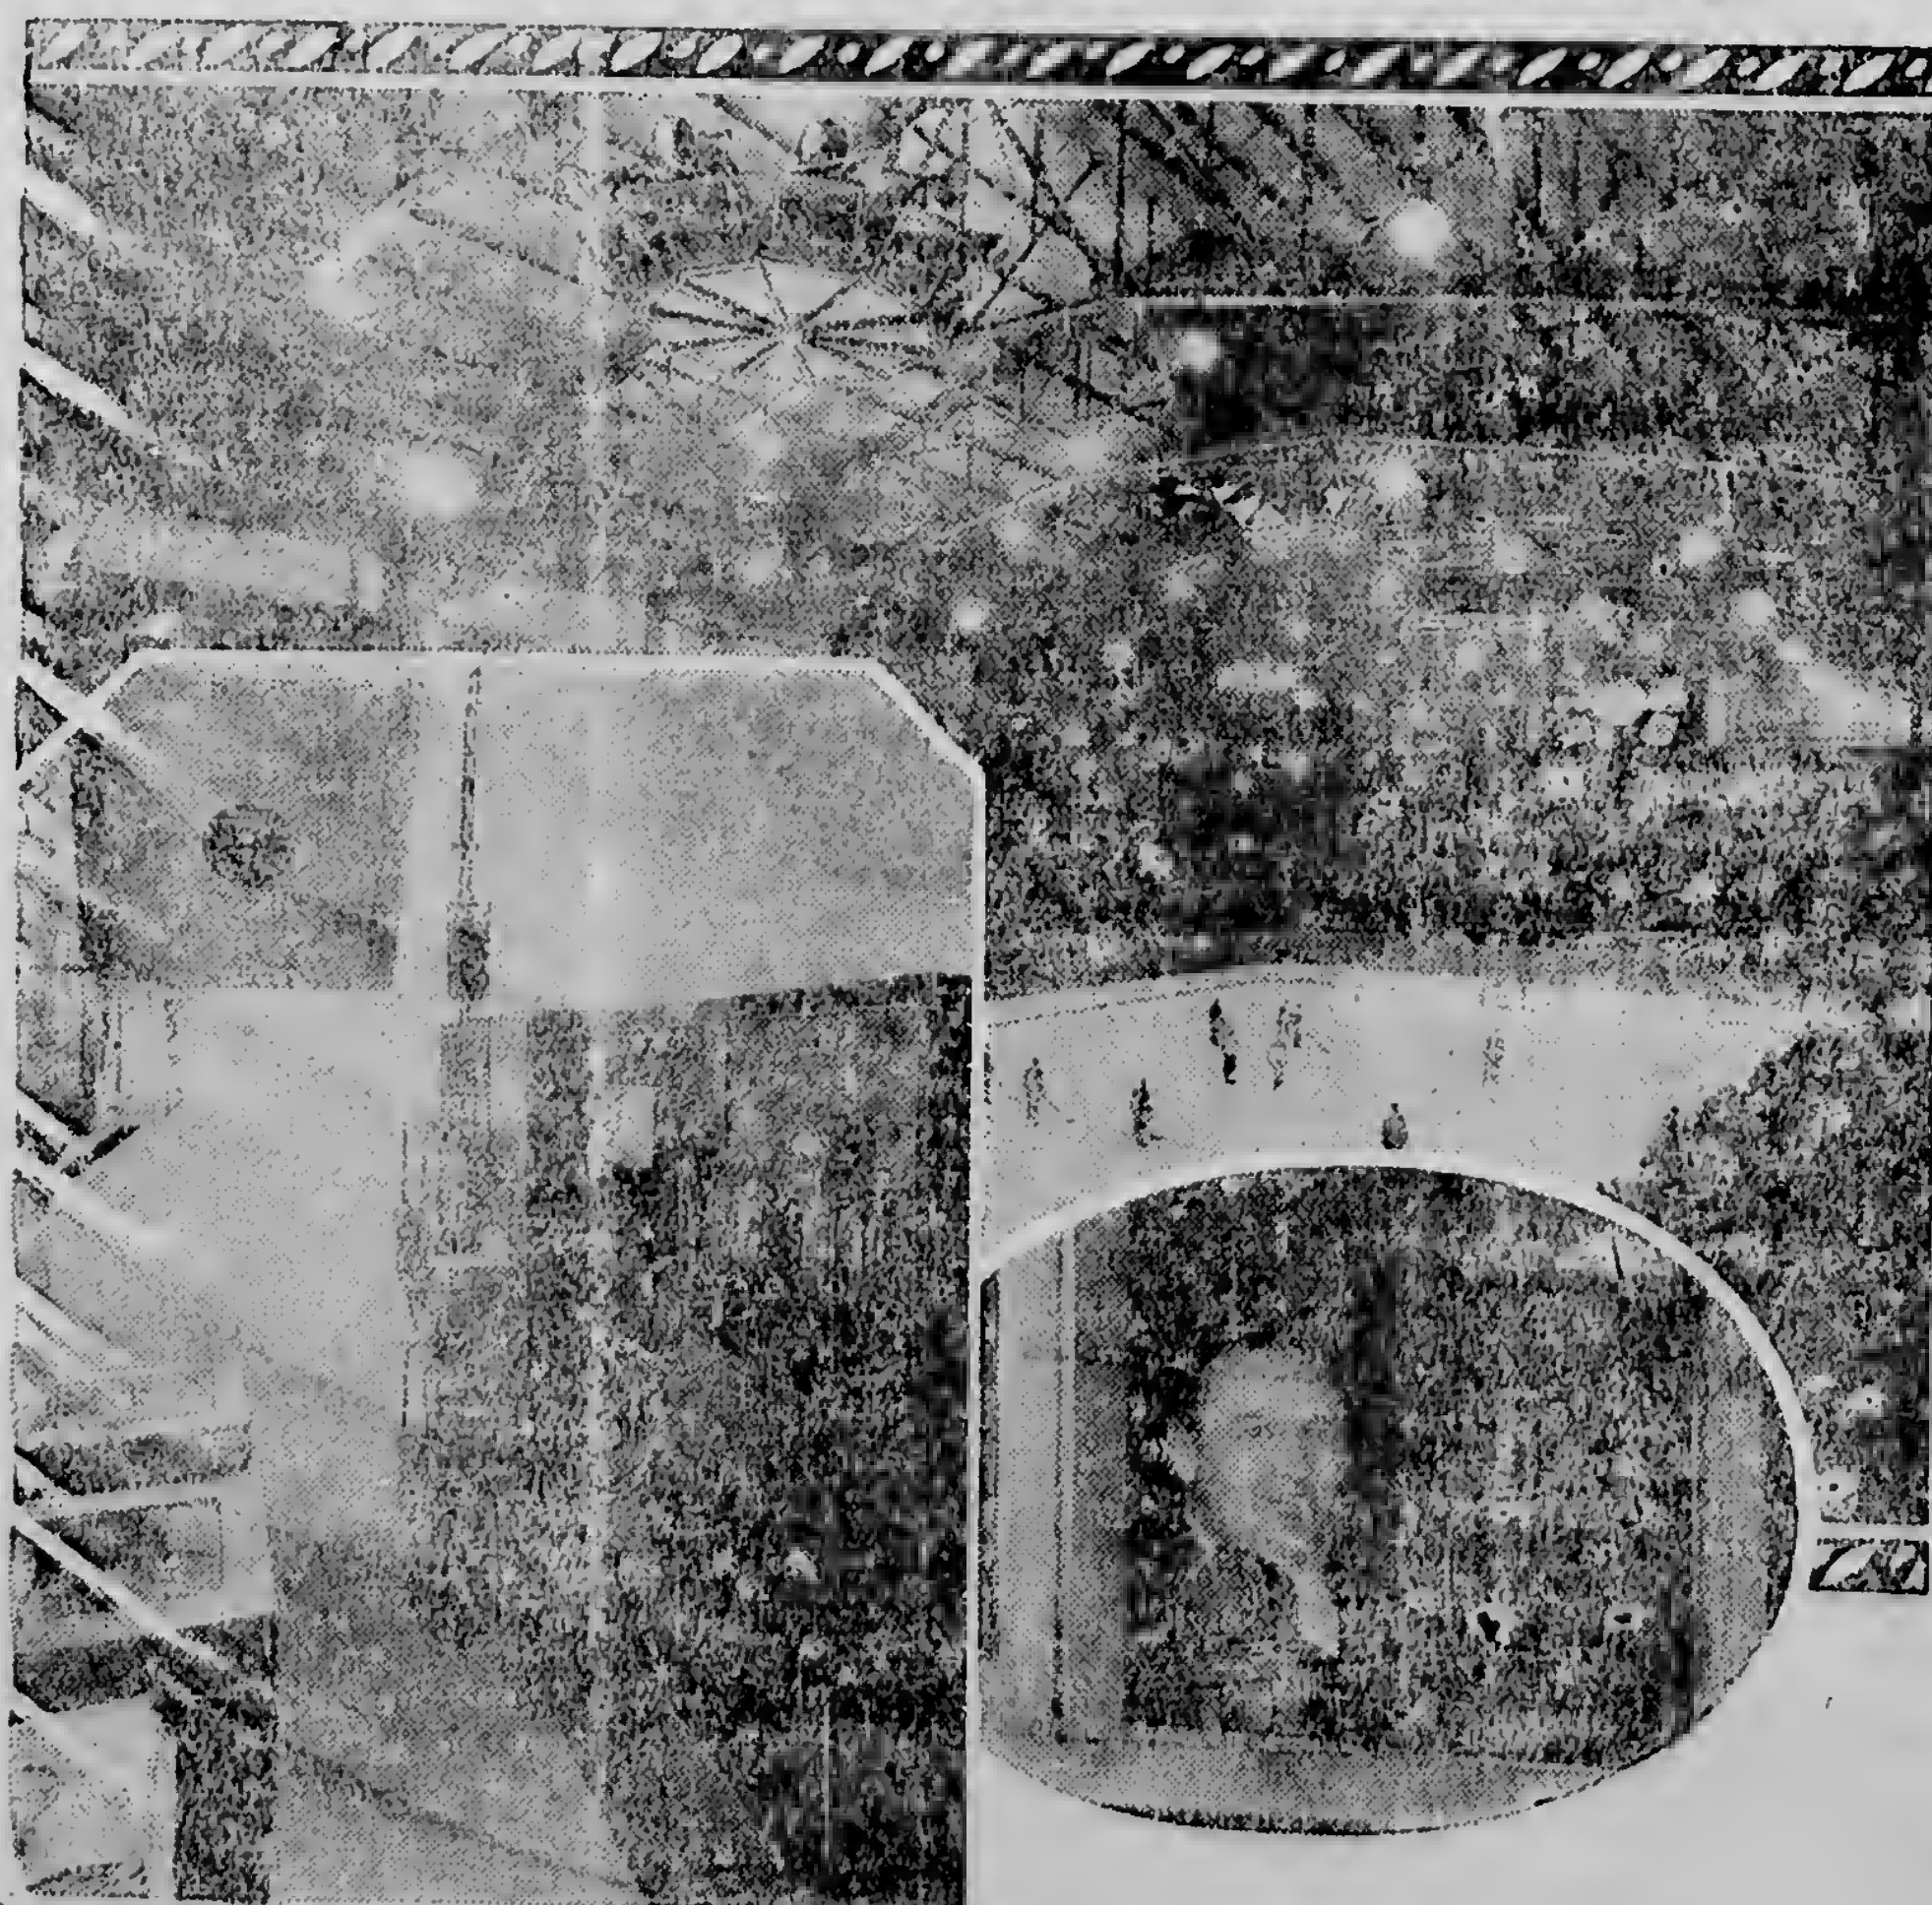

#### HOG MARKETING IN ALBERTA

Total hog marketings in Al-  
berta for the year 1932 were  
1,008,452 compared with a total  
of 725,938 for the previous  
year.

Reduce Examination Fees: Re-  
duction of \$1.00 in fees for

the Provincial Department of  
Education.

Farm Young People's Week:  
Dates for the annual farm  
young people's week at Alberta  
University have been set for  
June 7th to 13th.

## THE VOICE OF THE HOCKEY WORLD

How we see the "Voice of the Forum" in Montreal,  
the home of the Maroons, and the popular sheet  
on which the great National Hockey League games  
are played.

The Forum has a capacity of twelve thousand  
spectators, and the "House-Full" sign is generally  
in order, even in these days, particularly since the  
installation of this great Public Address System, using  
forty-six of the largest loudspeakers over which comes  
the voice of Reggie Grant, the popular radio announcer  
of the Maroon home games, telling the audience how

the games in other cities are progressing, and giving  
the outside world, through the same microphones, his  
famous running comments on the local game. Engineers  
of the Northern Electric Company claim this is the largest  
installation of its kind in Canada, and one of the largest  
on this continent.

The three great loudspeaker gondolas are plainly  
visible among the girders above the ice. Inset is the  
operating room, and Reggie Grant at the "Mikes" in  
the announcer's cabin.
